About Medxebron

Assisting surgeons all over the world with highest quality products.

Based in Canada, Medxebron has been acknowledged as one of the market leaders in neurosurgery. Our aim is to assist surgeons all over the world with the neurosurgery equipment which has been developed by maintaining highest standards of quality.

***Defining Excellence
in Neurosurgery.***

Global Approach

As part of our worldwide approach, we have formed regional partnerships in Europe, Asia, North and South America, Australia, and Africa to pool local market knowledge, facilitate regional commercial and strategic relationships, and speed up product rollout in those regions.

Medxebron products are approved in a significant number of international medical markets.

Our partnerships allow us to offer a comprehensive selection of neurosurgery products to our customers, giving them access to the latest and most advanced technologies in the field.

Defining Excellence

Excellence

Our products are made using the most advanced technology available on the market, and each one is meticulously inspected to ensure the highest quality.

Innovation

At Medxebron we craft repeatable growth models and innovation pipelines that result in new products with greater potential and fewer failure risks.

Products

Medxebron has maintained and defined excellence in the neurosurgery business, which is why medical professionals all around the world trust our products.

Mission & Vision

Mission

To deliver exceptional products and service to our customers, and to be a trusted partner in the neurosurgery industry by consistently meeting and exceeding the expectations of our customers and stakeholders. We strive to be at the forefront of technological advances in the field, and to continuously improve and expand our product offerings in order to meet the evolving needs of the neurosurgery community. We are committed to conducting our business with integrity, and to upholding the highest ethical standards in all of our operations.

Vision

To be the leading provider of innovative and high-quality neurosurgery products that improve patient outcomes and enhance the practice of neurosurgery.

Our Products

Cranial Perforator

Medxebron Cranial Cutters are manufactured with accurate measurements which provide higher cutting efficiency and more stability.

Raney Clips

Medxebron Raney clips provide temporary measures to stop the bleeding until exploration and wound closure can be performed safely.

Skull & Facial Connection

Medxebron Skull & Facial Plates are designed to fit the defected bones perfectly and helps in keeping original anatomical shape.

Additional Products

Other Cranial Products

Medxebron also market a wide range of cranial products and accessories including self-drilling screws, screwdrivers & coupling handles and instrument cases.

Surgical Products

Medxebron also market a number of surgical products including surgical lights, operation tables, electric surgical units and vein finders.
